MnVFC Patient Eligibility Screening Record for LPH, FQHCs, RHCs, Indian Health Service, and Tribal Clinics

CHILDREN 18 YEARS OF AGE OR YOUNGER

- Screen each patient for MnVFC eligibility at each immunization visit. Use this same record for all subsequent visits if the patient's eligibility status has not changed. If it has changed, start a new form.
- You do not need to verify responses given by the patient, parent, guardian, or legal representative.
- Keep this record (or an equivalent paper or electronic record) for three years. For MnVFC summary reports, you also need a system for easily retrieving data on the number of patients immunized each year in each eligibility category.
- Children that are underinsured are only able to receive MnVFC vaccines at local public health clinics (LPH), Federally Qualified Health Centers (FQHCs), Rural Health Centers (RHCs), Indian Health Service (IHS), and tribal health clinics.

Subsequent visits: Date/initial if response has not changed. If it has changed, start a new form.
